*(as above)*

### Total Classes: 3

Bold are the original entry classes (eg. LF1, SF2 or CO3, etc) entrants should use in their entry forms. The grey italic sub-classes are the possible splits that a judge might use during a show if there are 8 or more entries in the class and a clear division for sub-classes. Judges can also split further if they see appropriate splits. Note that fish commercially known as “Dragon” are to be shown as either Solid Metallic or Bicolor classes, and fish commercially known as “Koi” are to be shown in Patterned (Marble) class.
